INTERNAL GUIDE · ADMIN AREA

OUTSIDERS PRODUCTION

CRAFTING DREAMS

Admin *user guide*

Edit texts, add a film, publish a festival selection, present an artist: everything is done from your browser, with no developer and no redeployment.

YOUR-SITE/ADMIN

NOVEMBER 2026 EDITION

What you can *do on your own*

GOOD TO KNOW

The admin interface is in French. In this guide, buttons and tabs are written **exactly as they appear on screen**, followed by their English meaning, e.g. `Enregistrer` *(Save)*.

01 — Signing in, roles and security p. 3

02 — The content editor at a glance p. 4

03 — The golden rule: edit, preview, publish p. 5

04 — How to add a new film p. 6

05 — How to update press and festivals p. 8

06 — Commercials p. 10

07 — Resident artists p. 11

08 — Founders, logos and site images p. 13

09 — Contact details and site texts p. 14

10 — Version history p. 15

11 — Messages, editor accounts, password p. 16

12 — How to manage AI Studio and Voice Room videos p. 18

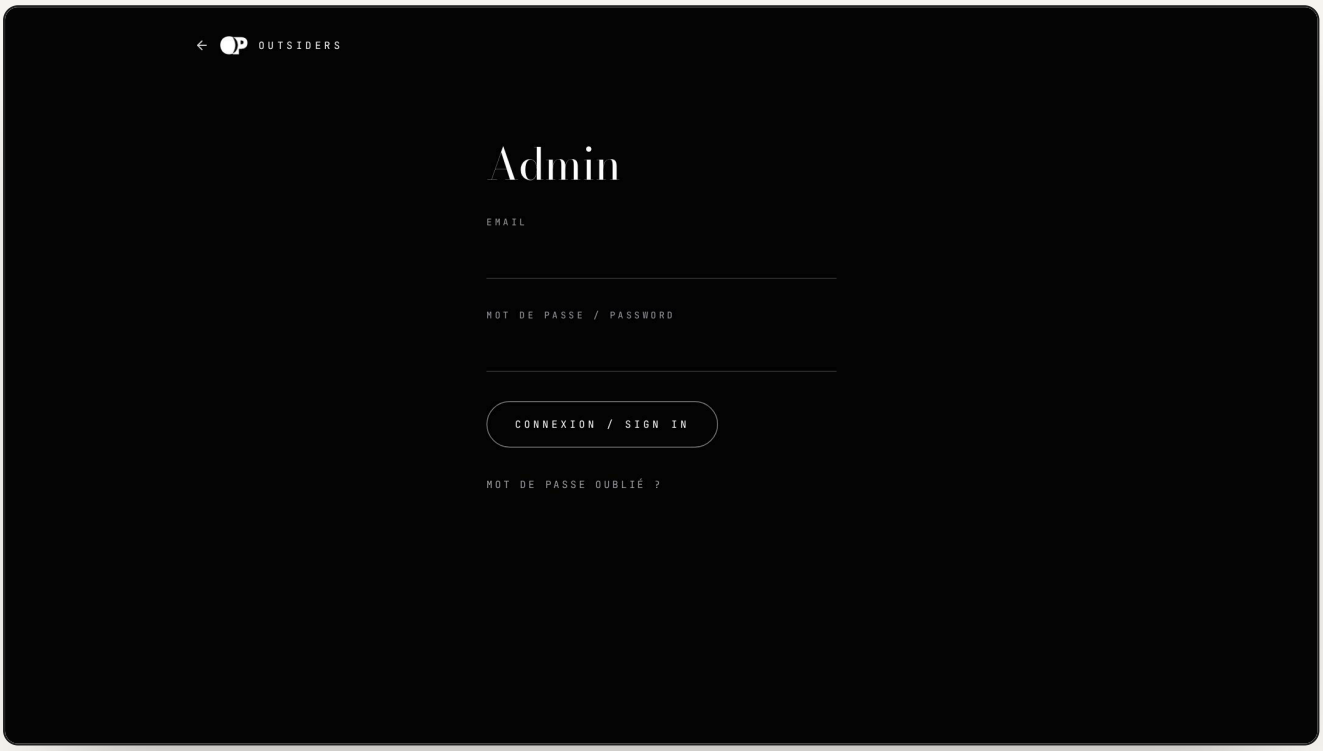

13 — Home page order, trailers, Cinema search p. 21

14 — Best practices and FAQ p. 23

Signing in

01

The admin area is your site address followed by **/admin**, for example **www.outsidersproduction.ma/admin**.

Sign-in screen: email, password, then « Connexion » (Sign in).

ROLE

Administrator

Reads contact form messages, edits all content, creates or removes editor accounts, changes their own password.

ROLE

Editor

Edits the site content and their own password. Cannot see messages or manage accounts.

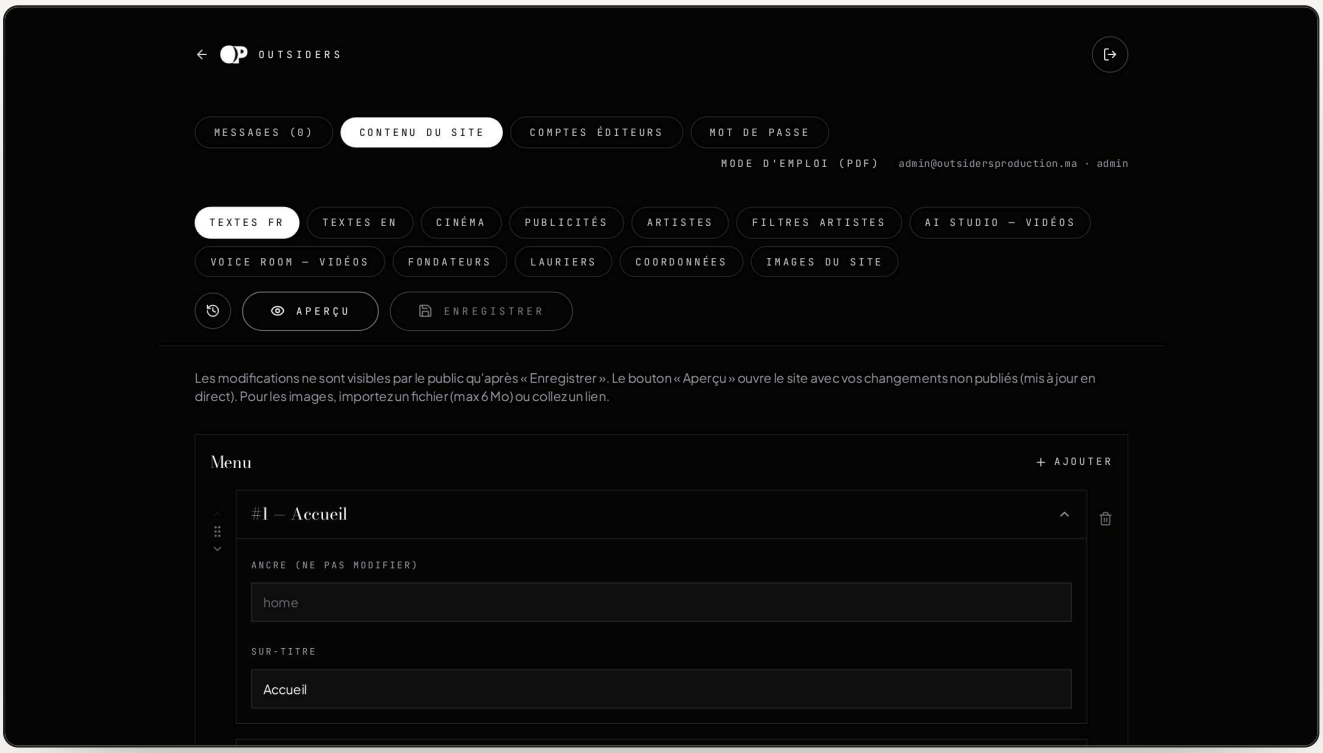

FORGOTTEN PASSWORD

Click **« Mot de passe oublié ? »** (Forgot password?) under the form: a reset link is sent by email. After several failed attempts, sign-in is blocked for a few minutes for security.

The editor *at a glance*

02

Tab `Contenu du site` *(Site content)*: each part of the site has its own tab. Texts exist in French and English.

Content tabs, the action bar and the fields to fill in.

TAB	WHAT IT CONTAINS
Textes FR / EN	All site texts in French / English: menu, home, about, founders (role, bio), press, contact, footer.
Cinéma · Publicités	Films and commercials, with poster, details and video link.
Artistes · Filtres	The "Resident artists" page and its filter categories.
AI Studio · Voice Room — vidéos	Opening videos, projects, capsules and partners of both pages.
Fondateurs · Lauriers	Founders' names and photos (Founders), festival laurels (Laurels).
Coordonnées · Images	Email, phone, social links (Contact details); logos and large site images.

The golden rule

03

Nothing is visible to the public until you click **« Enregistrer »** (Save). You can experiment safely.

STEP 1

Edit

Change the fields in the tab you need.

STEP 2

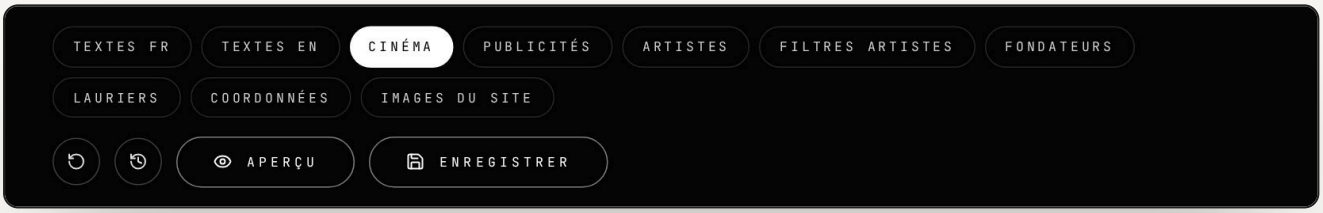

Aperçu

(Preview) opens the site with your unpublished changes, updated live.

STEP 3

Enregistrer

(Save) publishes immediately and creates a version in the history.

Action bar: undo (arrow), history (clock), Aperçu (Preview), Enregistrer (Save).

Gestures common to every list

GESTURE	EFFECT
+ Ajouter (Add)	Creates a new empty item at the bottom of the list.
Handle ⠿ (drag)	Drag and drop to change the order. The up/down arrows do the same, one step at a time.
Bin	Deletes the item. Before saving, the undo arrow brings it back; after saving, restore a version.
Image button	Uploads an image from your computer (6 MB max). You can also paste a link.
Undo arrow	Discards all unsaved changes.

Add *a new film*

04

01 Sign in, open `Contenu du site` then the `Cinéma` tab.

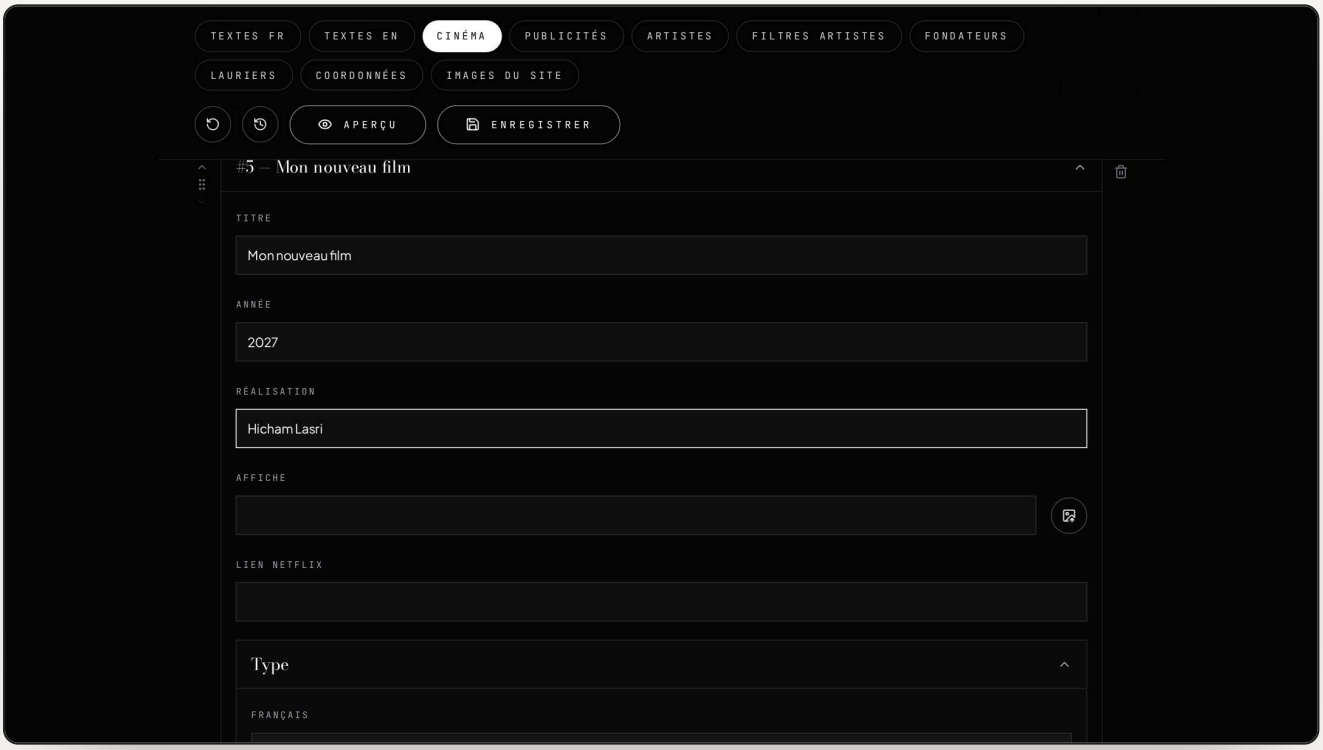

02 Click **+ Ajouter** (Add) at the top right of the list: an empty sheet appears at the bottom.

03 Open the sheet by clicking its title, then fill in the fields (see the table on the next page).

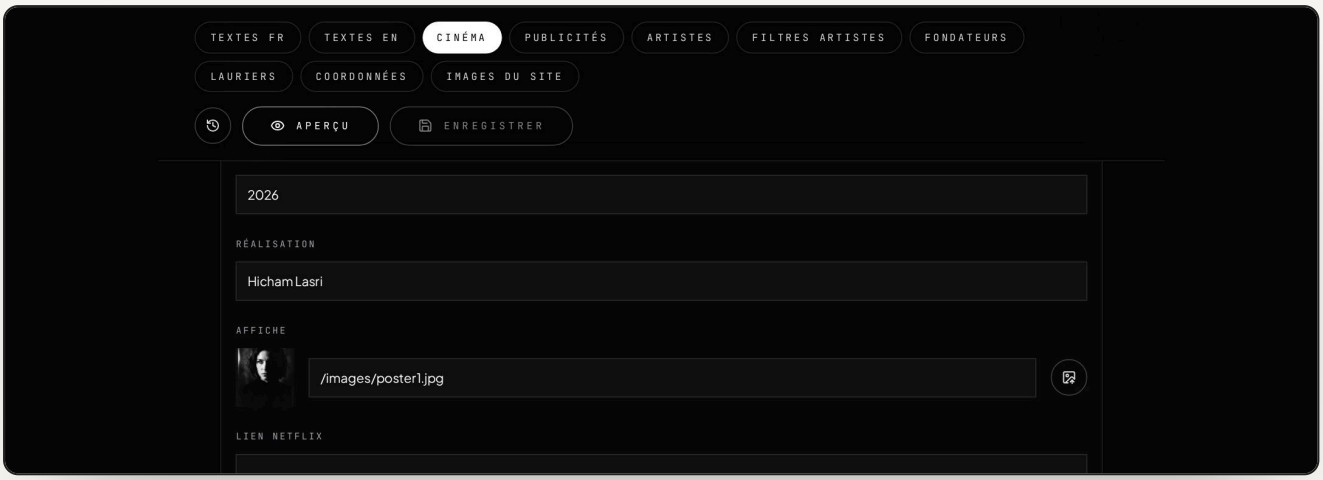

04 For the poster, click the image button next to the **Affiche** (Poster) field and choose the file.

05 Move the film to the right position with the ⠿ handle: the first in the list is the first displayed.

06 Click **Aperçu** (Preview) to check, then **Enregistrer** (Save).

A new film sheet being filled in.

An existing film sheet: poster, link, type, synopsis.

FIELD	WHAT TO ENTER
Titre · Année · Réalisation	Title as it should appear, release year, director(s).
Affiche (Poster)	Portrait image, ideally 1200 × 1800 px (2:3), JPG.
Lien Netflix	Link to the film (Netflix, YouTube, Vimeo…). Opens in a new tab. Left empty, the site shows "Coming soon".
Type FR / EN	E.g. « Long métrage · Fiction » and « Feature · Fiction ».
Synopsis FR / EN	2 to 4 sentences in each language.
Festivals	One line per selection, e.g. « Berlinale · Panorama ». + Ajouter for another line.
Bande-annonce (Trailer)	YouTube, Vimeo or .mp4 link, played directly in the film sheet (see p. 22).

The Cinema page: poster grid filtered by type (start of the "Type" field). The home page shows the first 6 films + "See all films". Commercials: same principle, filtered by client.

Update *press & festivals*

05

Studio news (press quotes, festival selections) lives in the "Selections & press" section of the site.

Add a press quote

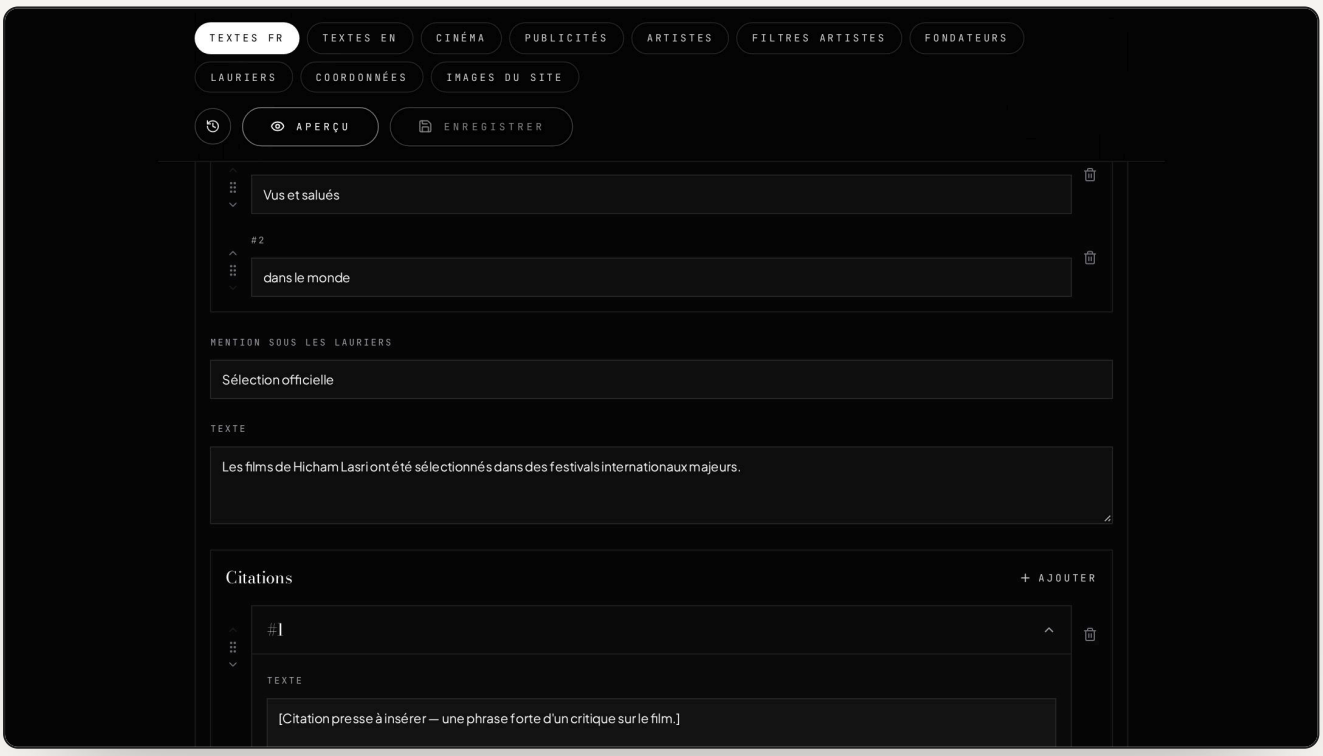

01 Tab `Textes FR`, open the **Sélections & presse** block.

02 Under **Citations** (Quotes), click **+ Ajouter**, enter the **Texte** (quote) and the **Source** (media name).

03 Do the same in `Textes EN` for the English version.

04 You can also change the title, the intro sentence and the line under the laurels.

05 Preview, then Save.

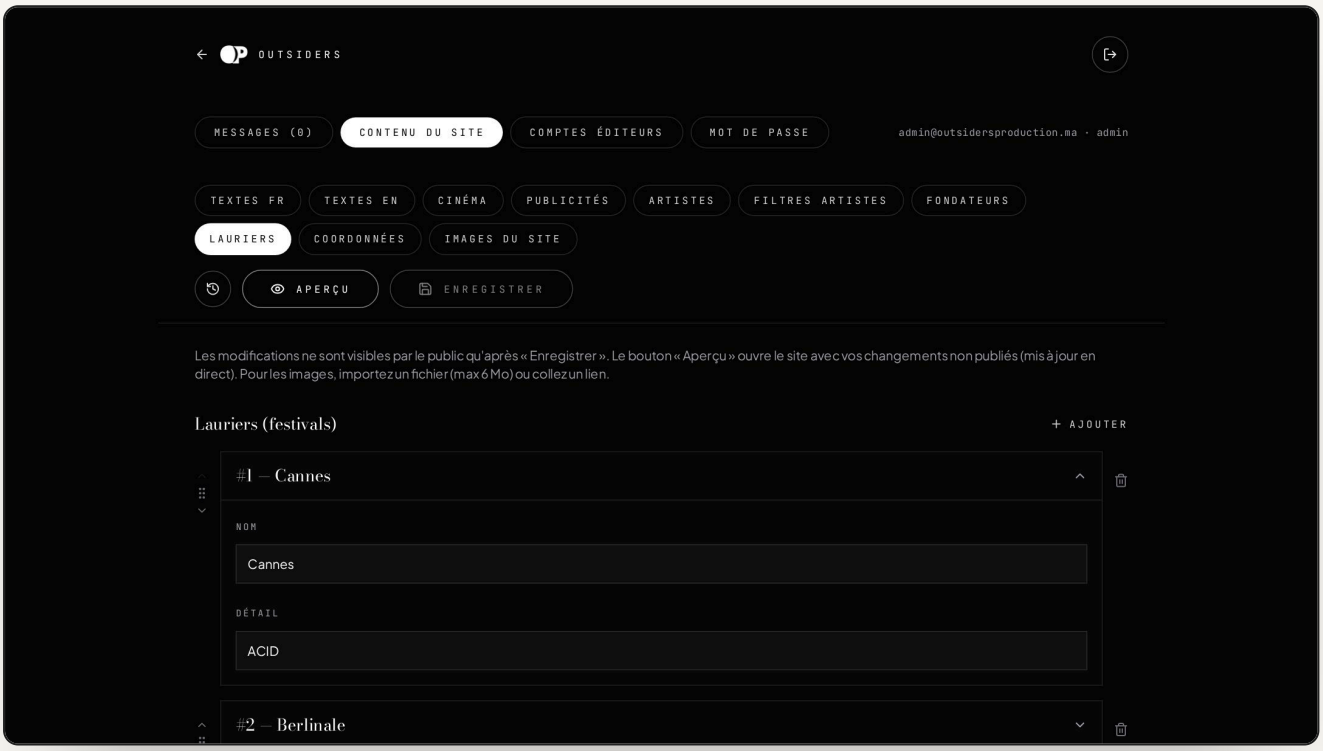

The "Sélections & presse" block and its quotes.

Add a festival selection

01 Tab `Lauriers` (Laurels), click **+ Ajouter**.

02 **Nom** (Name): the festival (e.g. "Venice"). **Détail**: the section (e.g. "Orizzonti").

03 Drag the laurel to the right place, then Save.

The laurels list, reorderable by drag and drop.

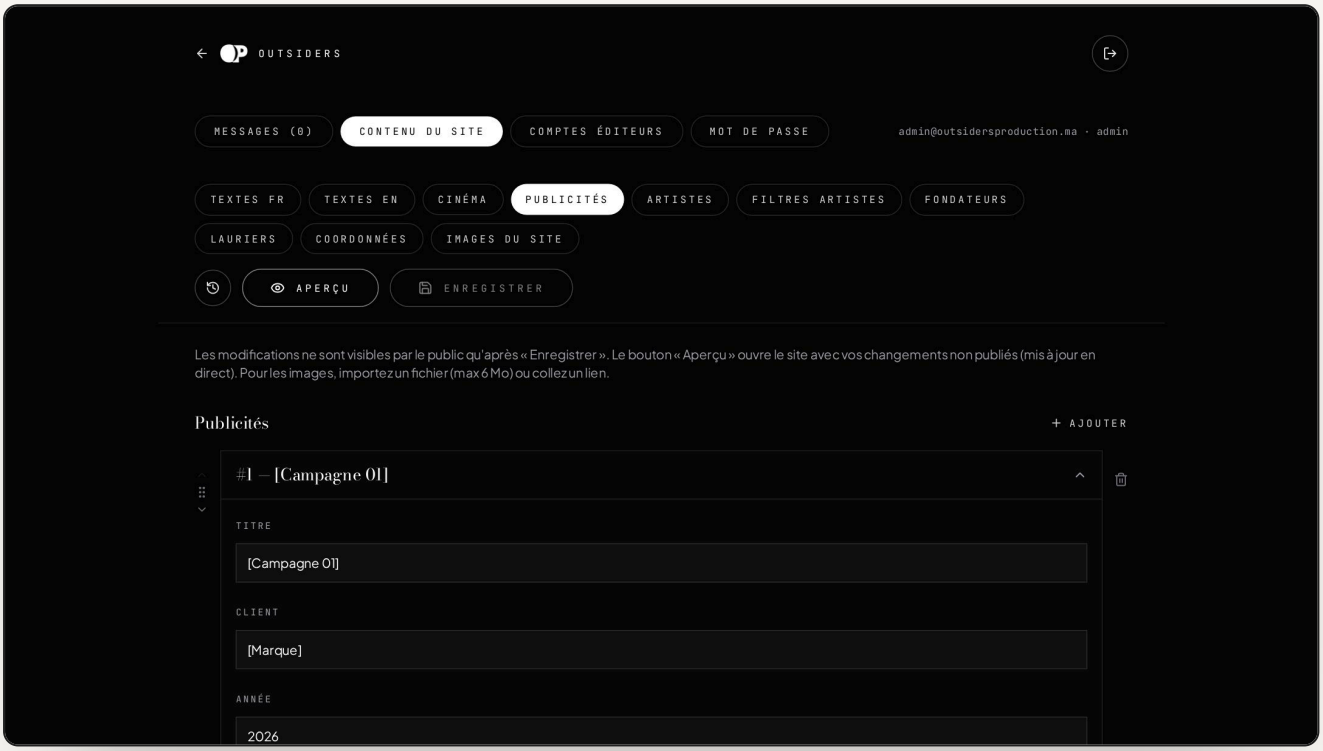

TIP

Also add the selection to the film sheet (**Festivals** field, Cinéma tab) so it appears with the film.

Commercials

06

Same principle as films: tab `Publicités`, + Ajouter, fill in the sheet, Save.

A campaign: title, client, year, image, video link.

FIELD	WHAT TO ENTER
Titre · Client · Année	Campaign name, brand, year.
Image	Landscape image, ideally 1920 × 1080 px.
Lien (Link)	Video link. YouTube / Vimeo play directly on the site; empty: "Coming soon".

Resident *artists*

07

01 Tab `Artistes`, + Ajouter, open the sheet.

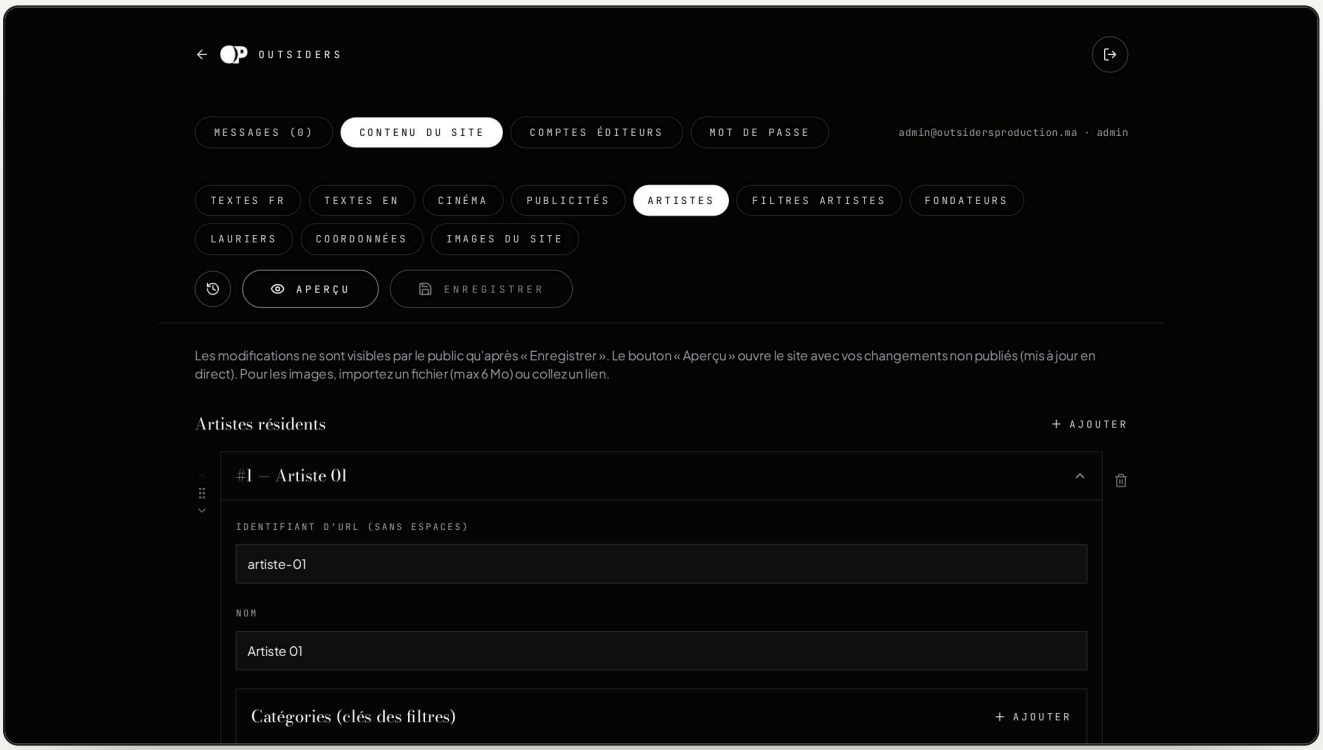

02 **Nom** (Name), then **Identifiant d'URL** (URL id): lowercase, no spaces or accents (e.g. "sara-benali"). It becomes the address of their page.

03 **Catégories**: one line per filter, using exactly the **keys** from the Filtres artistes tab (e.g. "directors", "morocco").

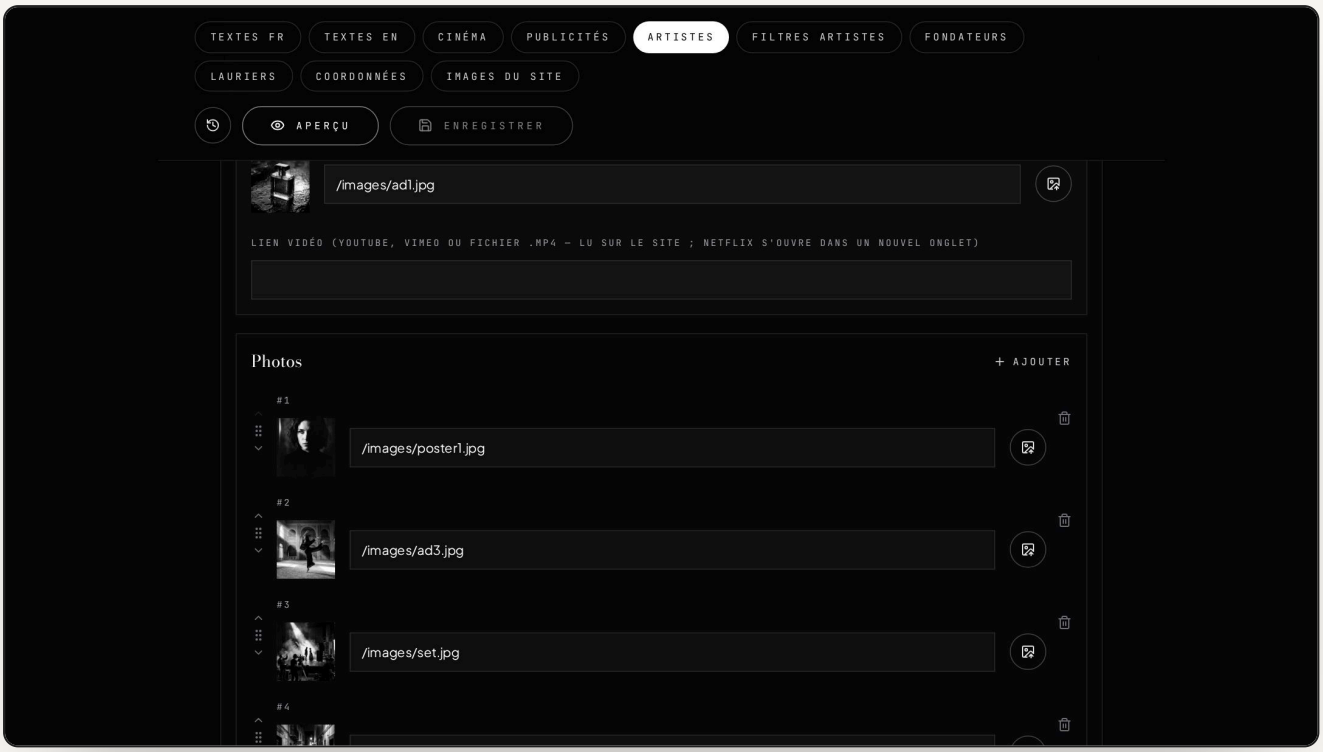

04 **Biographie** in French and English.

05 **Film**: a cover image and a video link (YouTube, Vimeo or .mp4), played full screen on the site.

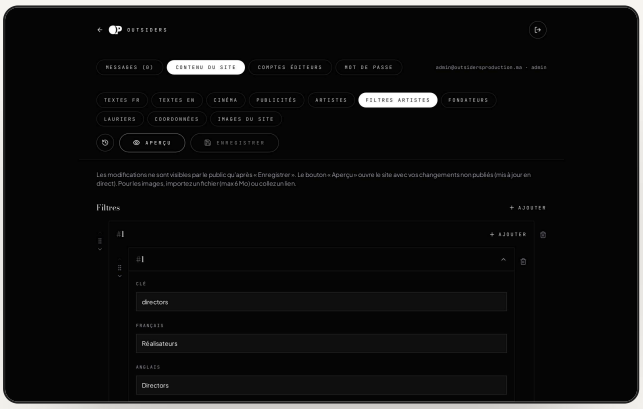

06 **Photos**: + Ajouter for each gallery image, drag to reorder.

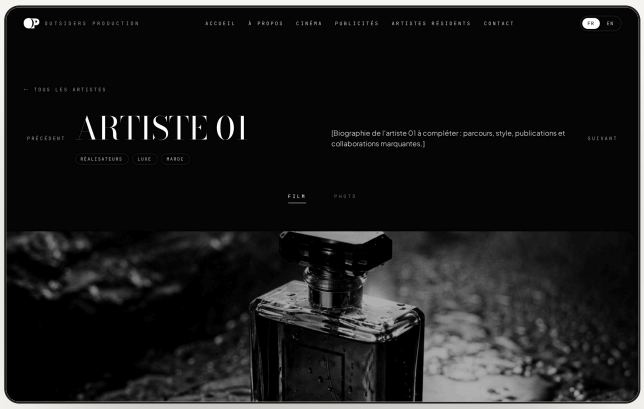

An artist sheet, order adjustable by drag and drop.

The film (image + video link) and the photo gallery.

Filtres artistes tab: the **key** is used in the sheets, the FR/EN labels are displayed.

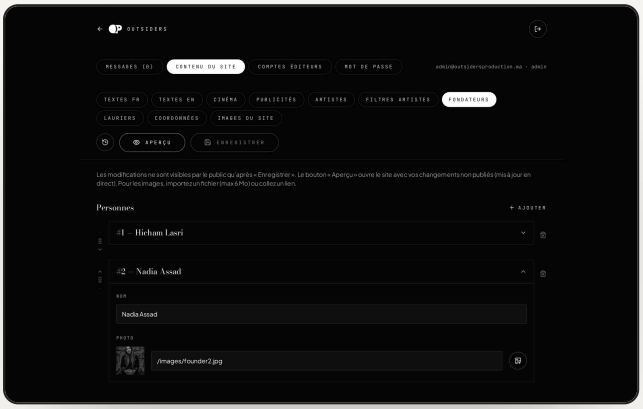

An artist page on the site.

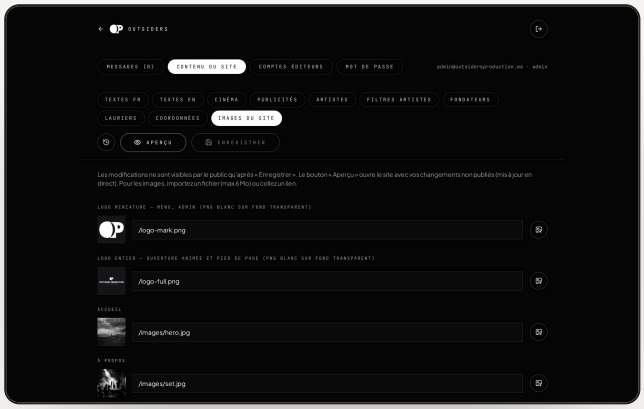

> Do not change the **key** of a filter already in use: artists using it would disappear from that filter. Create a new filter instead.

Founders, *logos and images*

08

Fondateurs tab: name and photo (portrait).

Images du site tab: logos, home, about and manifesto images.

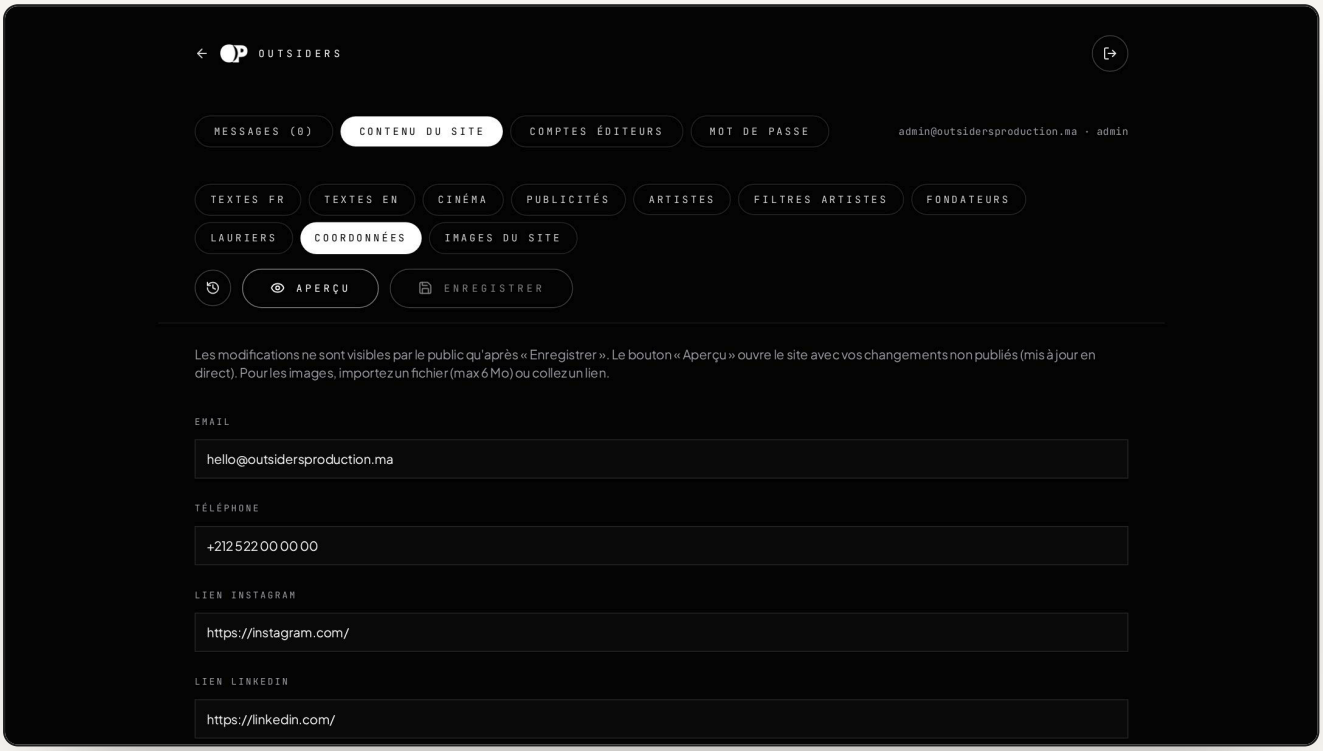

VISUAL	RECOMMENDATION
Founder photo	Portrait (3:4), at least 900 × 1200 px. Role and bio: Textes FR / EN tab, Fondateurs block.
Small logo	PNG, **white on transparent background**. Shown in the menu and admin.
Full logo	White PNG on transparent background, well-separated letters. It is split automatically letter by letter for the opening animation, and shown in the footer.
Home · About · Manifesto	Large landscape images, at least 2400 px wide, JPG.

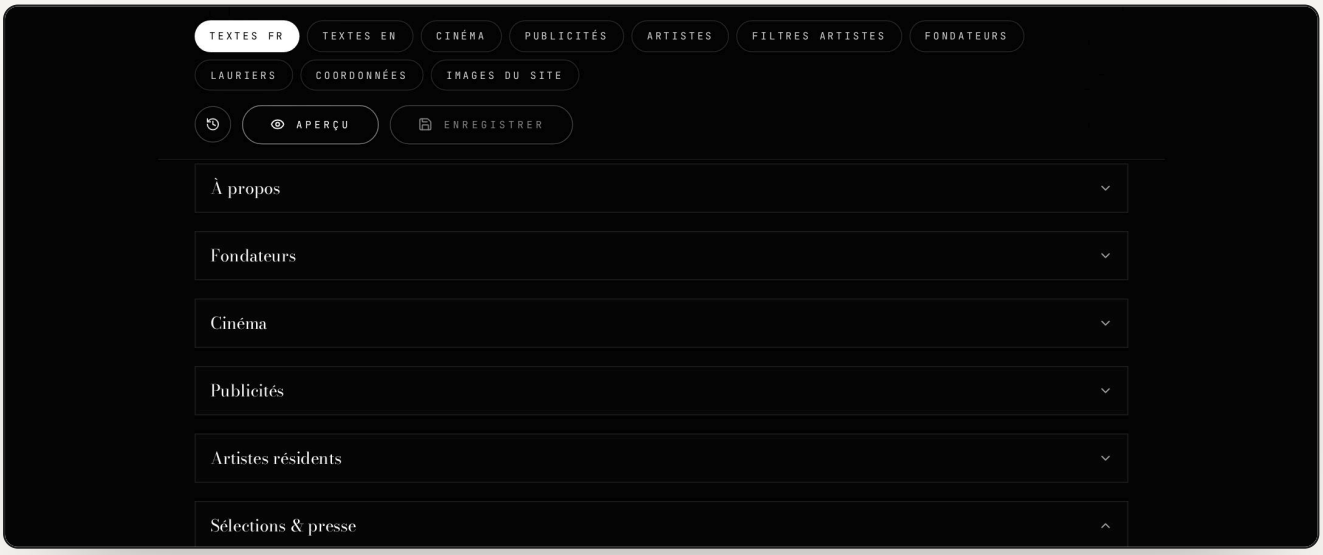

The opening animation: the logo appears letter by letter.

Contact details *and texts*

09

Coordonnées tab: email, phone, Instagram and LinkedIn links.

Textes FR tab: each block matches a section of the site.

> The « Ancre » (Anchor) and « Page » fields are greyed out: they link the menu to the sections and must not be changed.

Version *history*

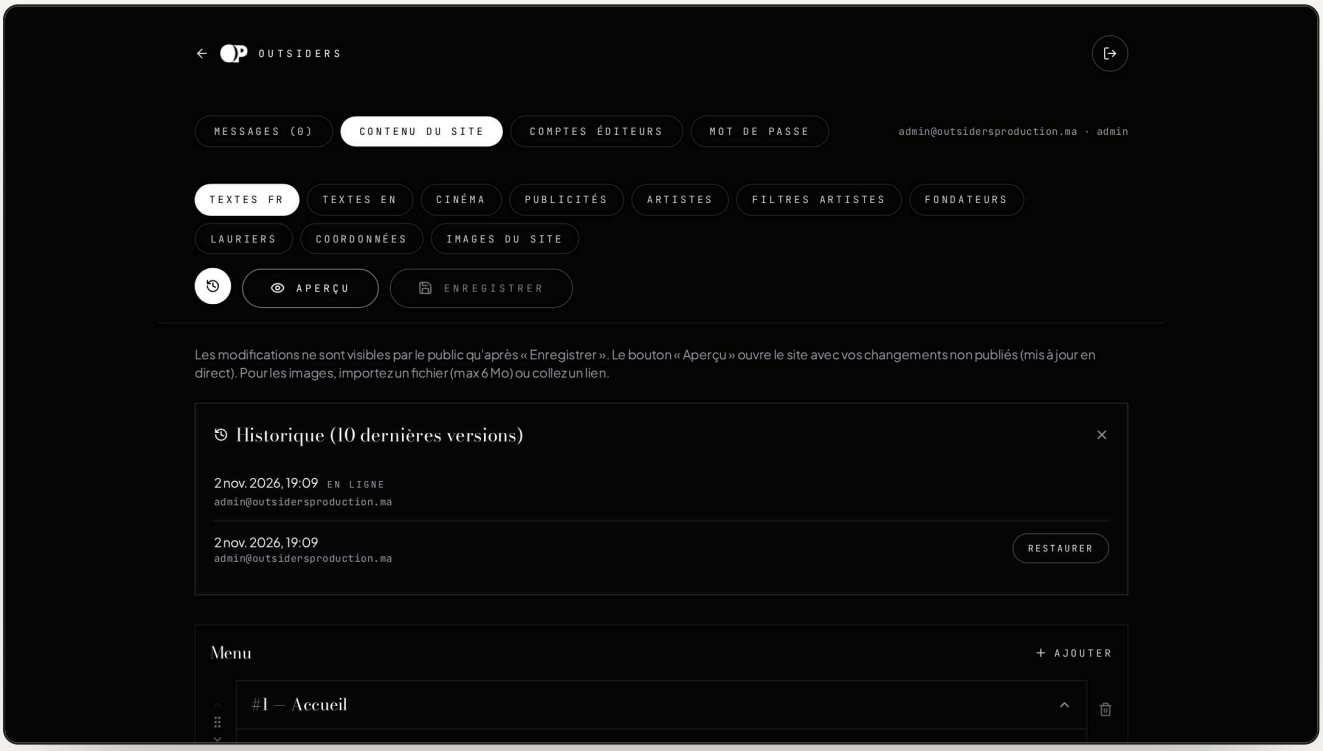

10

Every Save creates a version. The **last 10** are kept: if something goes wrong, go back in one click.

01 Click the clock icon in the action bar.

02 Find the version by its date, time and author.

03 Click **Restaurer** (Restore) and confirm: that version is published immediately.

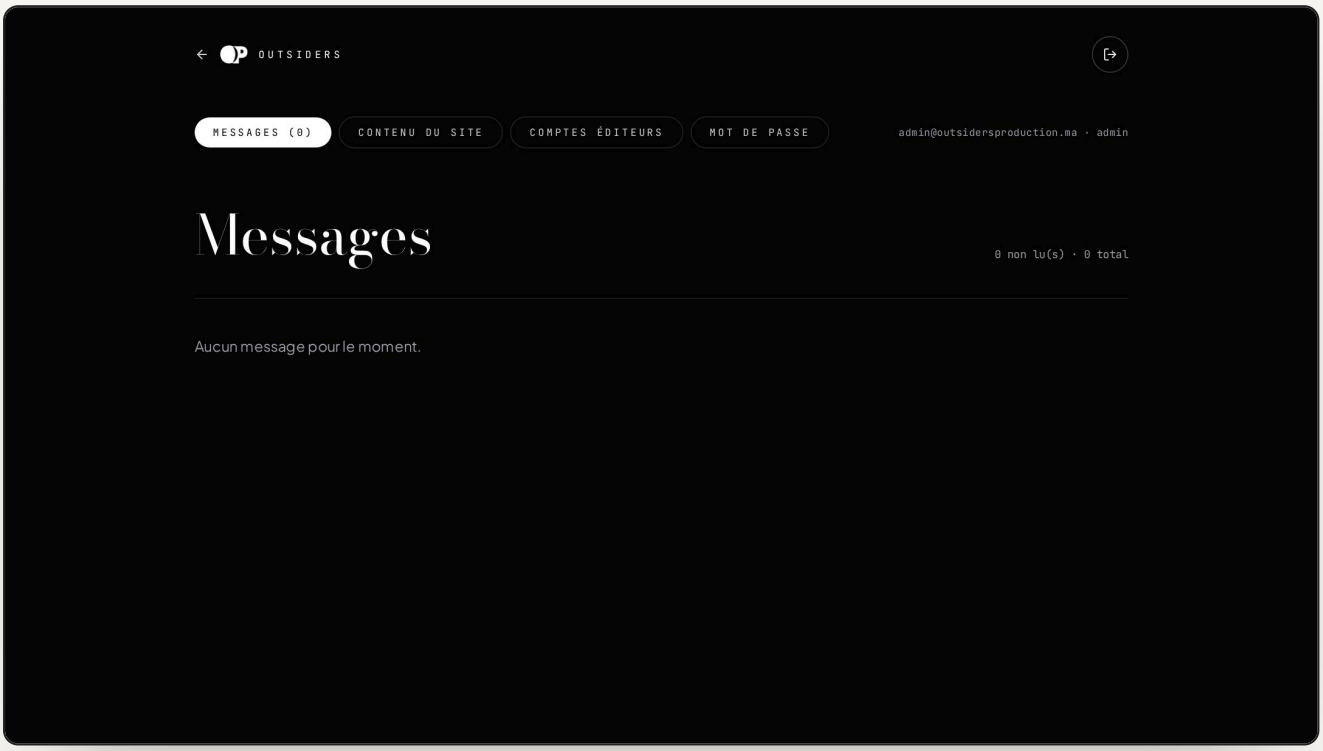

The history panel.

Messages

11

Administrator only. Every contact form message arrives here and is also sent by email.

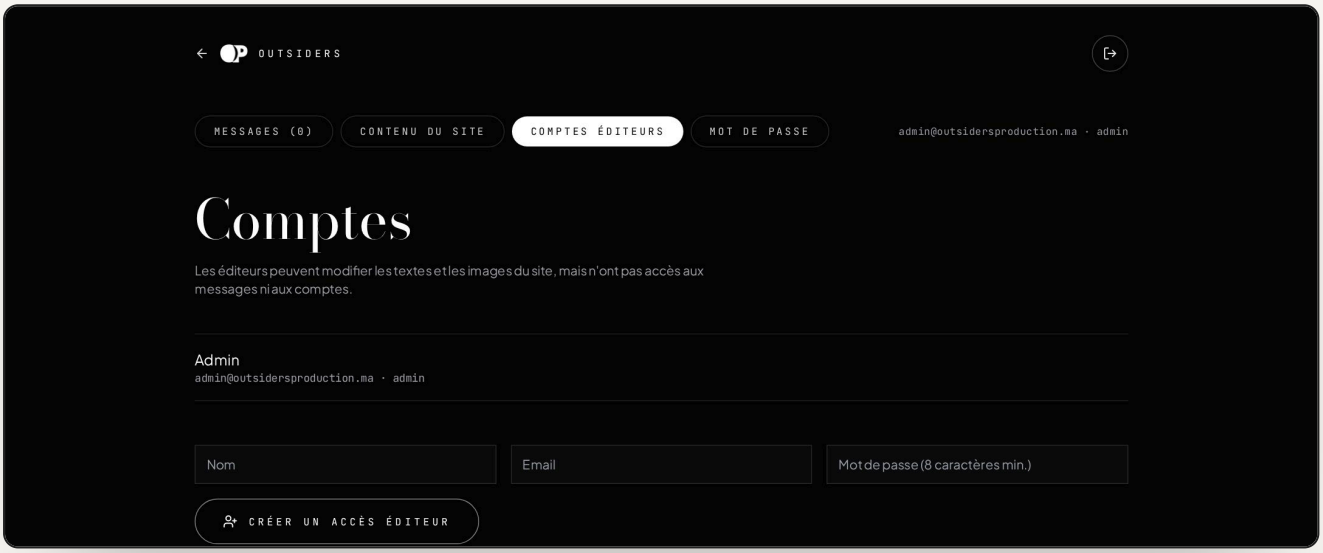

Messages tab: unread count, mark as read, delete.

Create an editor account

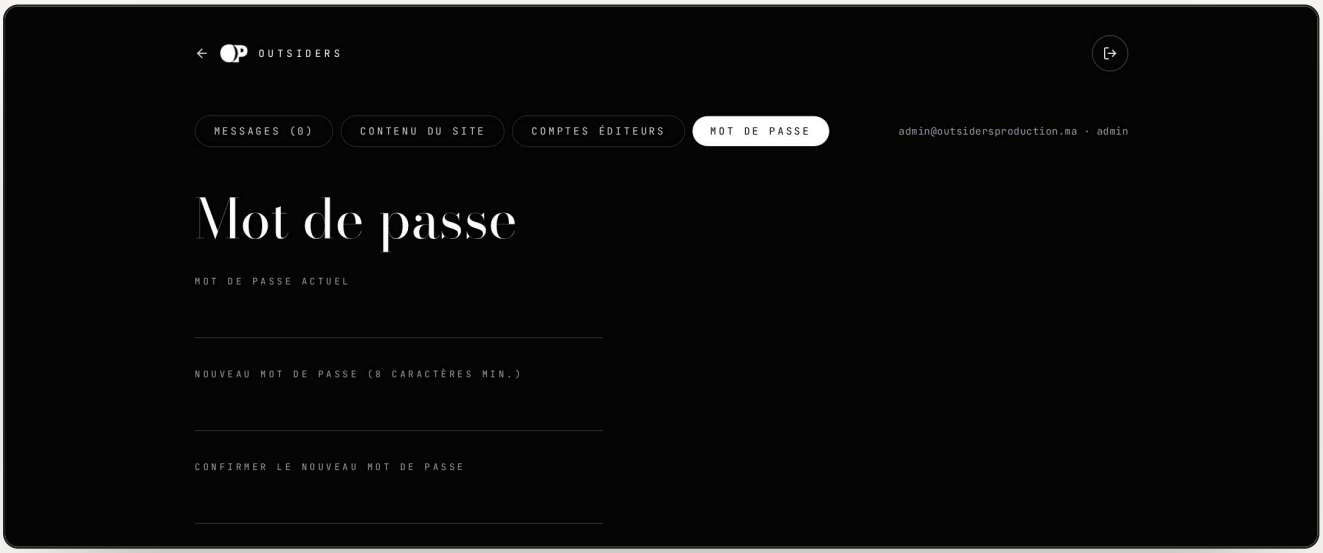

01 Tab `Comptes éditeurs` (Editor accounts): enter the name, email and a temporary password.

02 Send these details to the person: they can change their password in the **Mot de passe** (Password) tab.

03 To remove access, click the bin next to the account.

Editor accounts.

Changing your password: current one, then the new one.

AI Studio videos *& The Voice Room*

12

Each page has a full-screen opening video and a series of videos (projects for AI Studio, capsules for The Voice Room). On the site they loop silently; one click opens them full screen with sound.

Add or replace a video

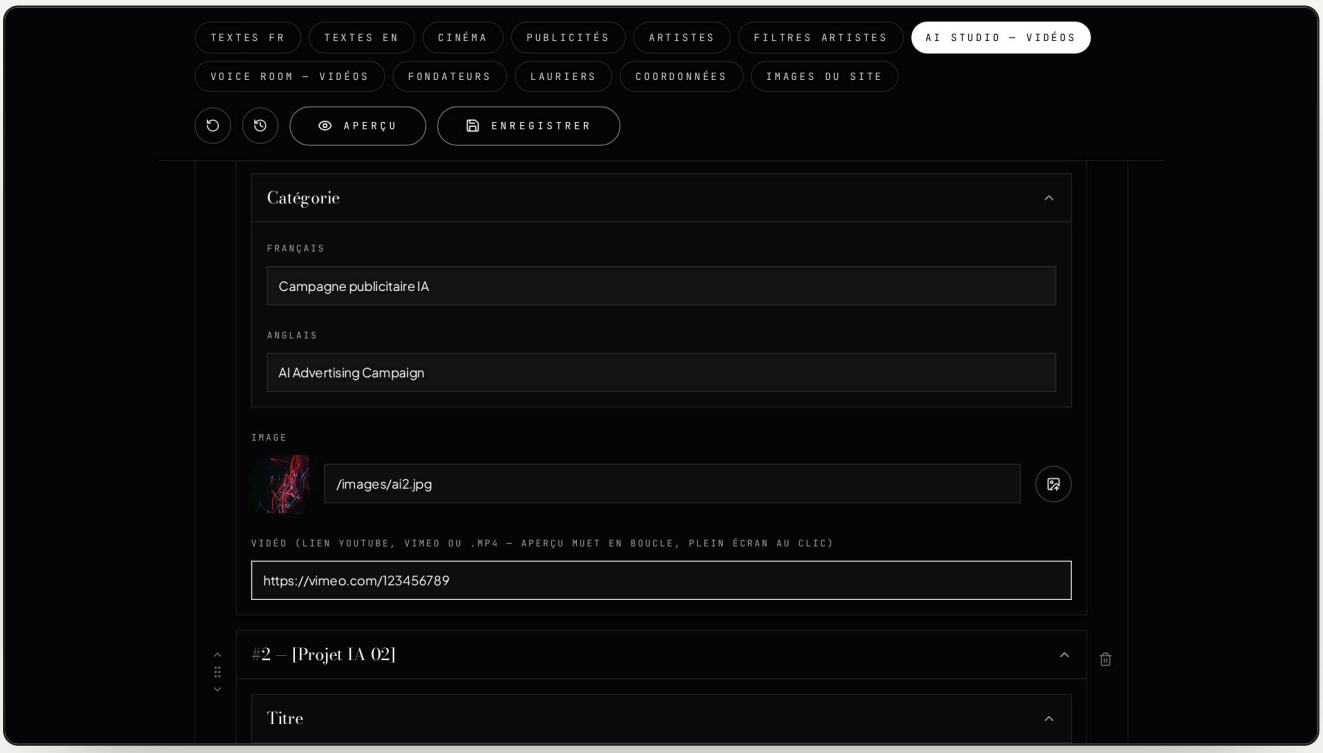

01 Upload the video to **Vimeo** or **YouTube** (public or "unlisted") and copy its link.

02 Tab `AI Studio — vidéos` or `Voice Room — vidéos`.

03 **Vidéo d'ouverture** (Opening video): paste the link in the **Vidéo** field; the **Image** shows while it loads.

04 **Projets / Capsules**: open a sheet, fill in the FR / EN title, cover image and video link. **+ Ajouter** for another video, ⠿ handle to reorder.

05 Preview, then Save.

An AI Studio project sheet: category, cover image and Vimeo link.

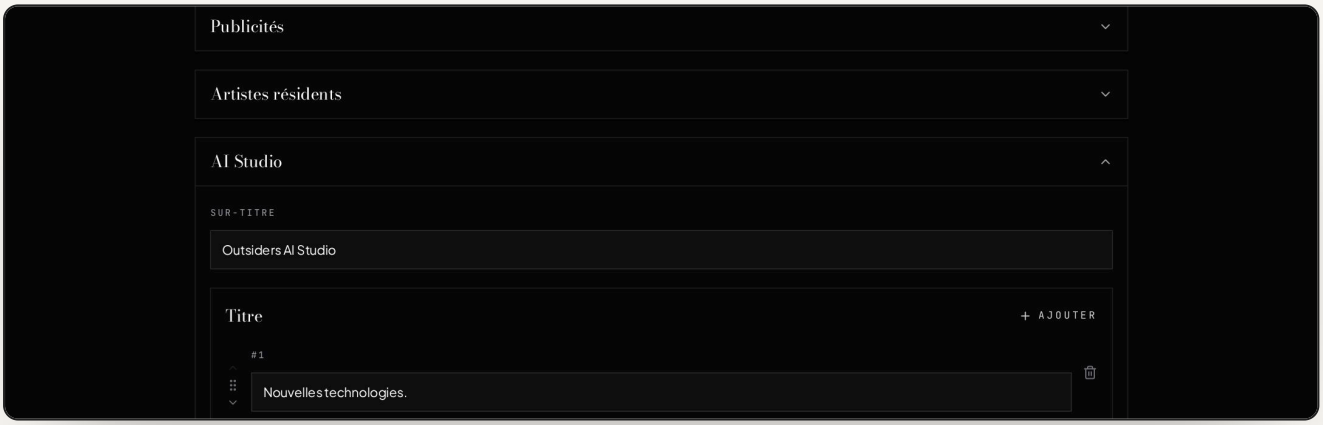

WHY A LINK RATHER THAN A FILE?

Videos are too heavy for the image upload (6 MB max). Vimeo and YouTube stream them fast and in high quality worldwide. A direct link to an **.mp4** file hosted elsewhere also works.

FORMAT	RECOMMENDATION
Opening video	Landscape 16:9, strong shot from the first seconds: that is what loops.
AI Studio projects	Landscape 16:9. The first project is shown large.
Voice Room capsules	Portrait 4:5 frame: vertical or square social formats fit well.

Edit the texts

Tabs `Textes FR` and `Textes EN`, blocks **AI Studio** and **The Voice Room**: title, tagline, services, paragraphs, featured collaboration and credits.

The AI Studio block in Textes FR.

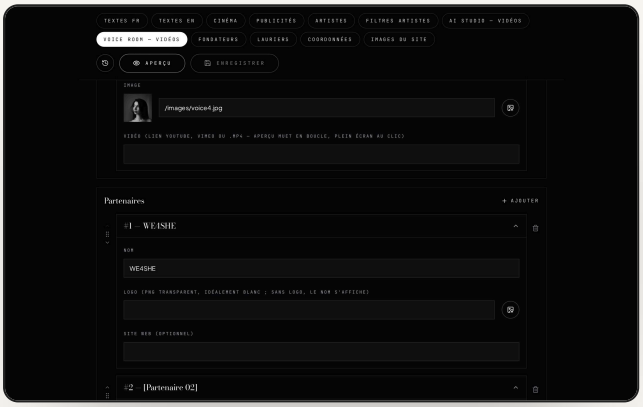

The AI Studio page on the site.

Committed partners (The Voice Room)

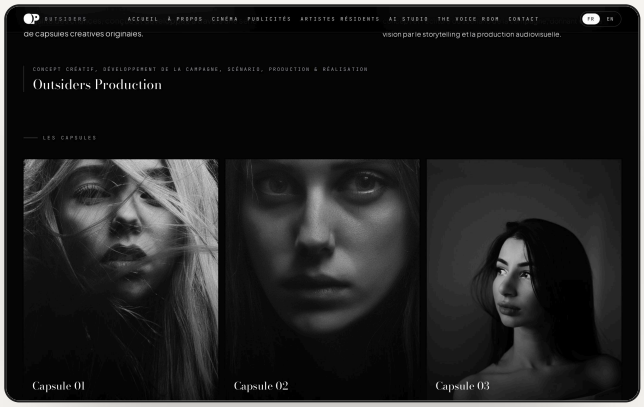

01 Tab `Voice Room — vidéos`, **Partenaires** (Partners) list, **+ Ajouter**.

02 **Nom** (Name) of the organisation or partner, **Logo** (transparent PNG, ideally white), optional **Site web** (Website).

03 Without a logo, the name is shown in full. Replace or delete the sample "[Partenaire 0×]" entries.

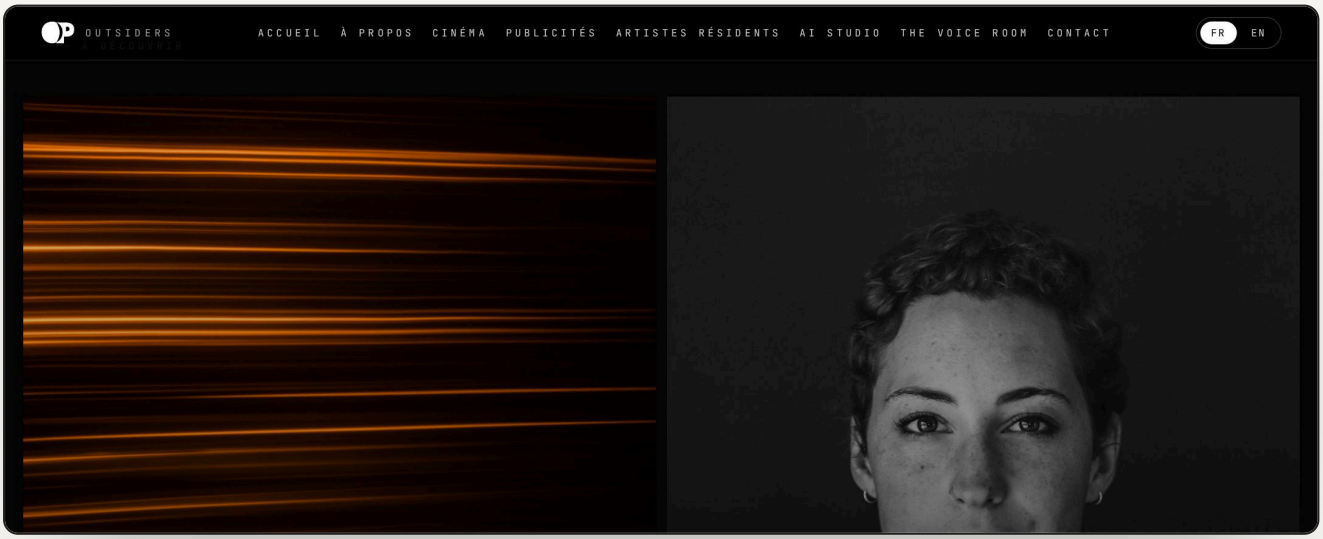

A partner sheet.

WE4SHE collaboration and capsules on the site.

The "Discover" banners on the home page

Two large banners lead to AI Studio and The Voice Room. They automatically reuse each page's opening image and video. Their texts are edited in `Textes FR / EN`, block **Bandeaux « À découvrir »**.

The two banners on the home page.

Home page *order*

13

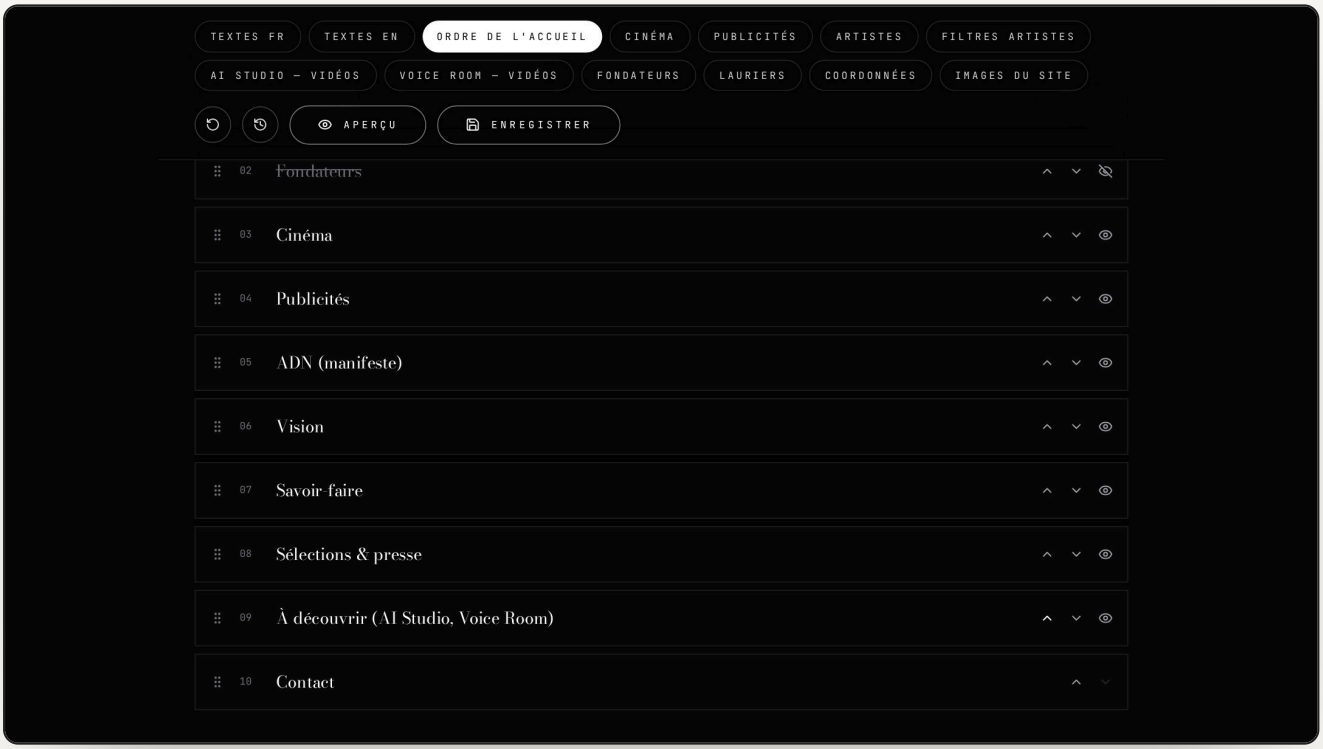

Choose the order of the home page sections and hide the ones you don't want to show for now.

01 Tab `Ordre de l'accueil` (Home page order).

02 Drag a row up or down (or use the ^ v arrows).

03 Click the **eye** to hide a section: it is struck through and disappears from the site, without losing any content. Click again to show it.

04 Preview, then Save.

Here, "Fondateurs" is hidden and "Sélections & presse" has been moved above "À découvrir".

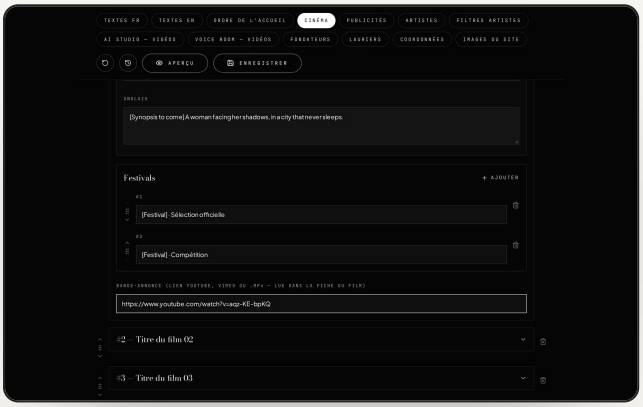

> The opening (title and scrolling banner) always stays at the top, and Contact cannot be hidden. If you hide a section linked from the menu (e.g. About), keep that in mind.

Add a film trailer

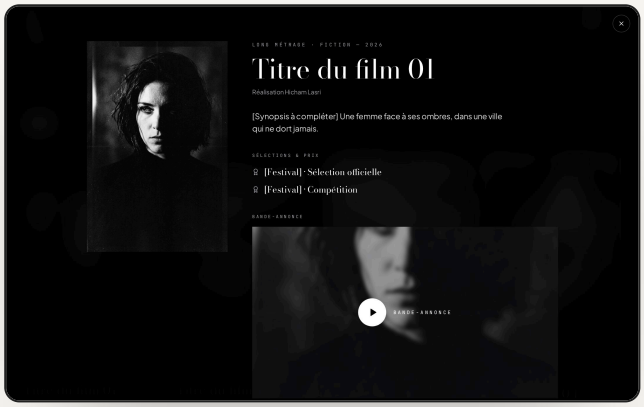

01 Tab `Cinéma`, open the film sheet.

02 Paste the YouTube, Vimeo or .mp4 link in **Bande-annonce** (Trailer, at the bottom of the sheet), then Save.

03 On the site, the film sheet shows a "Trailer" block above the Netflix link; it plays in place. Without a link, the block does not appear.

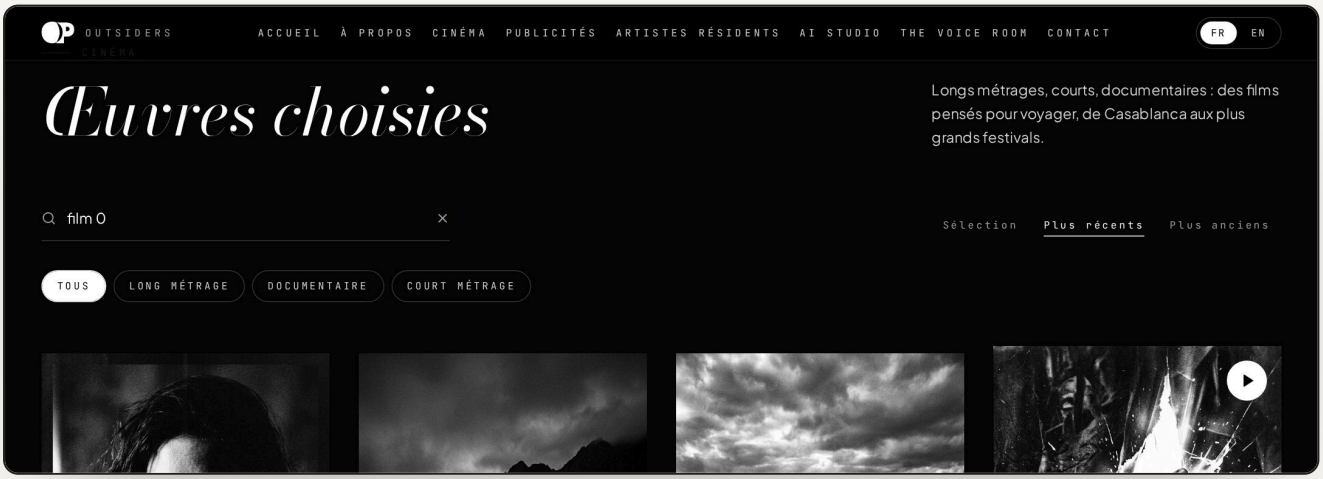

The Bande-annonce field in the admin.

The trailer in the film sheet.

Search and sorting on the Cinema page

Nothing to set up: visitors search a **title** or a **director** (accents and capitals ignored) and sort by **Selection** (your admin order), **Newest** or **Oldest** (Year field). Type filters are created from the start of the "Type" field: always write it the same way (e.g. « Long métrage · … »).

Search, sorting and filters on the Cinema page.

Best practices

14

QUESTION	ANSWER
I can't see my changes	Did you click « Enregistrer » (Save)? The button is greyed out when there is nothing to publish.
My image won't upload	It is over 6 MB. Reduce it (JPG, 80 % quality) before uploading.
The English text didn't change	Each language is edited separately: Textes FR and Textes EN, or the Français / Anglais fields of a sheet.
I deleted a film by mistake	Before saving: undo arrow. After: History → Restaurer (Restore).
A video won't play	Check that the YouTube or Vimeo link is public (or unlisted) and that embedding is allowed. Netflix links always open in a new tab.
Display order	In every list: the admin order (⠿ handle). For home page sections: « Ordre de l'accueil » tab.

REMEMBER

Edit → Preview → Save. Until you save, the public site does not change. And the history always keeps your last 10 versions.
